Step 1

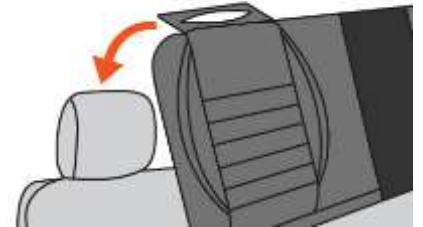

If necessary, remove the center panel using the zippers found on each side of the center panel - the two halves zip together to form one piece with the center panel removed.

Step 2

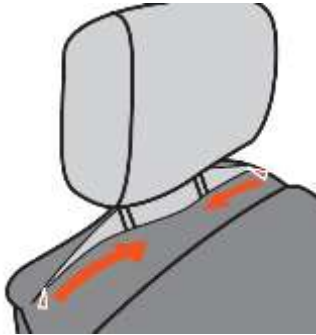

Widen the headrest opening by adjusting the zippers on the top panel.

Step 3

Place the headrest panel over the headrest.

Step 4

Using the velcro, secure the headrest panel to the headrest poles.

Step 5

Secure the top and bottom halves of the seat cover by pushing the black security tabs through the opening between the top and bottom of the seat.

Step 6

Place the headrest cover over the headrest.

Step 7

Snap the two elastic straps together and secure the headrest cover to the headrest.
